

Inspection-Free Presswood Pallet

We design and produce the Inspection-Free Presswood Pallet for more than 6 years. It is a good alternative for the traditional wood pallet, it can save your budget, stock space and shipping cost by choosing the Inspection-Free Presswood Pallet. Most of our products are export to European, American, Asian countries and we look for long term partners in all countries in all areas.

Product Introduction

We goal to see good quality disfigurement within the manufacturing and provide the most effective support to domestic and overseas shoppers wholeheartedly for Short Lead Time for China Fully Automatic Coconut Fiber Pallet Making Machine for Pressed Pallet, We have now skilled products knowledge and rich experience on manufacturing. We normally think your achievements is our company! Short Lead Time for China Pressed Wood Pallet Machine, Wood Pallet Machine, With the principle of win-win, we hope to help you make more profits in the market. An opportunity is not to be caught, but to be created. Any trading companies or distributors from any countries are welcomed.

Wholesale cheap China Inspection-Free Presswood Pallet

Product Introduction of Inspection-Free Presswood Pallet

The full name of Inspection-Free Presswood Pallet is plant fiber molded flat industrial pallet. The raw materials used for the pallet are wood shavings, plant stalks, etc. It is an integral structure, and the panel and 9 supporting feet are molded at one time. The surface of the pallet board is flat and smooth, which can meet the transportation of various goods, and the lower surface is equipped with reinforcing ribs. The horizontal and vertical force of the board is balanced, and the nine-leg distribution can meet the four-way insertion of the forklift. It is a flat four-way fork-in single-sided pallet.

Applications of Inspection-Free Presswood Pallet

The Inspection-Free Presswood Pallet is a good alternative of the traditional wood pallet. It can use in the all the industries using traditional wood pallet, and we can customize the size and design to meet your requirement.

It has a wide range of uses, suitable for packaging, transportation, and turnover of building materials, electrical, hardware, food, chemicals, furniture and machinery together with goods, and are especially suitable for container trucks (container trucks). It can be used for trains, automobiles, airplanes and ships for mechanized loading and unloading operations. It can also be used as a backing board for docks, shopping malls, warehouses and cargo stacks. It is an ideal tool for warehousing, exporting and logistics.

Qualification of Inspection-Free Presswood Pallet

Qingdao SenYu(Scenix) is located in the beautiful city of Qingdao, China, specialized in the R&D, sales and manufacturing of Inspection-Free Presswood Pallet. Through years of strenuous effort, we have started to play an important role in this market. We have 2 modern workshops and production line, with patent technology to make the stable Inspection-Free Presswood Pallet with an annual output of 5000,000pcs.

With the competitive prices, quality products and aftersales services, our Inspection-Free Presswood Pallet has been used in many fields of chemical, auto-parts, printing, food etc. Most of our customers are repeat order reputable customers from Middle East, Asia, Europe and other foreign countries.

Faq

Q: Are you trading company or manufacturer?

A: We are professional manufacturer of the Inspection-Free Presswood Pallet and production line. And Welcome to visit our factory

Q: How long is your delivery time?

A: Generally we have all sizes in stock, so we can arrange the shipment as soon as possible. If in peak season 5-15 days with large quantity

Q: Do you provide samples? is it free?

A: Yes, we could offer the sample for free charge, clients only needs to pay the freight.

Q: What is your terms of payment?

A: T/T or L/C

Q: How many sizes available for Inspection-Free Presswood Pallet

A: We have seven size mold and has some customized molds

Q: Can you do the OEM Size and pattern for Inspection-Free Presswood Pallet

A: Yes, with certain quantity, we can make the new mold and produce any size and pattern.

Q: Can we order mixed size of the pallet

A: Yes, we have all sizes in stock and you can have mixed order.

Q: How many pallets can be loaded in one container

A: Because of the nestable design, 1000-1500 pcs Inspection-Free Presswood Pallets can be loaded

How to make the Inspection-Free Presswood Pallet

First the wasted wood was put into the chipping machine and chip it to fine wood chips. The fine wood chips are dried by a dryer, then mixed with thermosetting resin, and placed in a press for compression molding. The entire production process is carried out under high temperature and high pressure to kill any insects and fungi remaining in the wood. At the same time, due to the high density of the wood products produced, it can prevent any other insects from reproducing and re-invading. This kind of molded product is "artificial wooden packaging material" instead of the traditional "solid wood packaging material". Its products no longer need to be treated with insects, and there are no live insects in the products. It meets ISPM15 (International Standard for Phytosanitary Measures 15). The demand for exporting wood packaging products, and after various service life cycle fatigue tests, can be shipped with the goods to other countries without any special treatment.
